Visit Cytec at the European Coatings Show 2009! RADCURE™ UV/EB Curable Resins & Additives Present New Technological Developments

Cytec's RADCURE business will again be present at the upcoming European Coatings Show in Nürnberg.

Under the theme "Sustainable Change" RADCURE will present several new product developments for various coating applications:

UCECOAT® 7699 aliphatic PUD meets the growing need of the furniture industry for more innovative waterbased systems by allowing an easy formulation of a broad variety of colors with one single system. Due to its outstanding benefits compared to traditional UV-PUDs this material is particularly recommended for pigmented high end wooden furniture top coats.

New EBECRYL® 3639 epoxy acrylate is appropriate for applications in need of flexibility, outstanding reactivity and good surface resistance. The product adds value to a broad range of applications such as flexo inks, screen inks, overprint varnishes, resilient flooring coatings, paper upgrading, and coatings on plastics or wood.

UCECOAT® 7660 co-solvent and Xi free polyurethane dispersion is particularly suitable as unique binder in spray coatings for wooden furniture transparent base-coats. It provides outstanding wood wetting and adhesion on several wood species, while being resoluble before UV curing and easy to formulate. Together with top-coats based on other Cytec grades state-of-art waterborne UV finishes with high-end performances can be achieved.

Together for Sustainable Change

Cytec helps the coating industry to improve its environmental footprint by developing new technologies with distinct ecological advantages.

Our new developments in waterbased systems, low VOC, HAPs-free, low odor acrylates for the packaging industry, BADGE free resins for food contact and renewable raw materials are only some of the possibilities we offer you to make a difference towards a **Sustainable Change**.

In order that we may keep up with the requirements in this field, please share your needs and thoughts about Sustainability with us by replying to our brief [online survey](#).

We appreciate your feedback and look forward to working together with you for Sustainable Change.
